MobiQuitous 2011
8th International ICST Conference on Mobile and Ubiquitous Systems
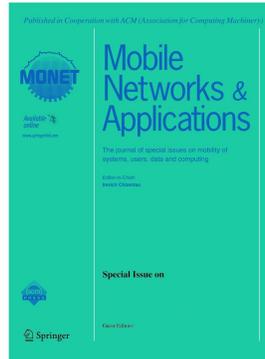

December, 6-9, 2011, Copenhagen Denmark

Welcome to MobiQuitous2011

The Eighth Annual International Conference on Mobile and Ubiquitous Systems:Computing, Networking and Services (MobiQuitous 2011) will provide a forum for practitioners and researchers from diverse backgrounds to interact and exchange experiences about the design and implementation of mobile and ubiquitous systems. Areas addressed by the conference include systems, applications, social networks, middleware, networking, data management and services, all with special focus on mobility and ubiquitous computing.

The conference also hosts a number of workshops as forums for specific topics within the field. The best paper award will be given to honor the excellent work in the field.

Updates
